- 3.3. The provisions of these GTC shall continue to apply as long as the User is registered with the Platform.

4. Services

- 4.1. Freight forwarding agreement - In the performance of the Services through the Quicargo Platform, Quicargo will act as (and shall be deemed) a forwarder as described in article 8:60 of the Dutch Civil Code. The Shipper acknowledges and agrees that the use of the Services through the Platform constitutes a freight forwarding agreement between the Shipper and Quicargo as referred to in article 8:60 of the Dutch Civil Code, and to which the most recent version of the Dutch Forwarding Conditions shall apply. In the event of a conflict between these GTC and the Dutch Forwarding Conditions, these GTC shall prevail (unless stated otherwise in these GTC)
- 4.2. Issuing requests - The Platform allows the Shipper to issue requests for the transportation of goods by a Carrier, also known as a transport order. The transport order includes the necessary details for a Carrier, such as the location of the goods and the destination, a description of the goods to be transported including weight and dimensions, together with other relevant information for a Carrier. In specific cases the Shipper is able to issue requests through an IT

integration. The requests will then be automatically issued on the Platform via the systems of the Shipper.

- 4.3. Agreement through the platform - As soon as the transport order of the Shipper has been matched through the Platform the Shipper will receive confirmation in writing of the transportation of the goods by the respective Carrier. In case Shipper is integrated with the Quicargo Platform the order will automatically appear in the active order list. As soon as the order appears in this list it will be deemed confirmed. In case Shipper has disabled email confirmation the order will be deemed confirmed as soon as it appears in the active order list. This confirmation shall be deemed the moment the Shipper and the respective Carrier enter into the agreement for the transportation of goods.
- 4.4. As soon as the transport order of the Shipper has been matched through the Platform with a Carrier, the details of the transport order will be sent as soon as possible via the Quicargo Platform to the specific Carrier.
- 4.5. Terms and conditions of carriers - The Shipper acknowledges and agrees that a) the transportation of goods by the Carrier may be subject to additional terms and conditions of the respective Carrier, b) Quicargo shall not be responsible or liable for the agreement under which the actual transportation of goods shall be carried out, such agreement shall be entered into at the sole responsibility of the Carrier and Shipper and c) Quicargo does not guarantee for each request of a Shipper a Carrier will be available.
- 4.6. In case Quicargo would be considered an actual carrier by law, the following regulations will apply to the relation between Quicargo and the Shipper, and to these terms:
- For international carriage by road: the CMR Convention and the terms and conditions of the waybill;
 - For national carriage by road, the AVC (Algemene Vervoer Conditities) 2002, latest version, and the terms and conditions of the waybill;
- 4.7. Unless explicitly agreed to otherwise, Quicargo does not support transport of ADR, temperature controlled and high value goods. See annex 1 for a more detailed, but not exhaustive list.
- 4.8. Shipment size- Quicargo reserves the right to adjust the charges in the event of deviations of the maximum size and weight of the goods to be transported.

- 4.9. Unless explicitly agreed to otherwise, Quicargo does not provide a pallet exchange service.
- 4.10. It is not allowed to bypass the Quicargo Service and engage in any business relationship with a Carrier that has been introduced to Shipper through the Quicargo platform.

5. Pickup and delivery

- 5.1. Transport documentation and labels - The Shipper shall hand over the goods as specified in the transport order to Quicargo or to a third party commissioned by Quicargo to carry out the transport at the address and time stated in the forwarding order. The Shipper is responsible for issuing correct transport documentation and address labels for each shipment.
- 5.2. Transport documentation for shipment originating from or addressed to a location outside the EU - The Shipper shall deliver the following documents for shipments to be transported to or from a location outside the EU:
- A commercial invoice (in English) that properly describes the goods, the value of the goods, currency and incoterms etc.
 - The commodity code of the goods
 - A prior written statement in cases of non-standard or non-permanent export of goods (for example temporary export of goods for repair that need to be sent back after the repair is done)
 - A power of attorney, if that is necessary
 - All information or documentation that needs to be delivered to the customs authorities. Shipper is responsible for delivering the right documents on time and to comply with customs law.

Shipper is aware that customs activities might result in delays.

- 5.3. Packing, labeling and securing of load - All shipments must be properly packed to withstand normal transport handling (45-degree incline road), cargo securing and machine sorting, and to avoid causing damage to other goods. All packages must be able to withstand a falling down 80CM. Vessels containing liquids must be packed with sufficient absorbent material. Goods on pallets should not overhang and need to be stackable. All goods need to be wrapped or strapped properly and labeled clearly. The Shipper shall provide Quicargo with functional load securing equipment and loading aids. Quicargo is not liable for damage caused by the absence of, or insufficient, packaging.

The packaging must suit the contents. Quicargo reserves the right to reject goods upon pickup and cancel the transport order if the packaging is deemed inadequate or defective. In this case the Shipper shall pay Quicargo one hundred percent (100%) of the agreed upon remuneration and all extra costs incurred for the carrier to arrange a pick up. On the packaging printed text like "fragile" or "top/bottom" does not relieve the Shipper from any of the responsibilities mentioned in these GTC.

- 5.4. Information on the transport order- In the request for the conclusion of the transport order, the Shipper shall inform Quicargo of the quality specifications and special features of the transport goods necessary for the contractual and legal execution. This includes information on the weight, type, number of items, extent and weight of individual goods and the packaging. The Customer indemnifies Quicargo and its Carriers from any violation of the provisions in this article.
- 5.5. Issuing instructions - The Shipper shall have the right to issue instructions to Quicargo in order to specify the performance. If the Shipper does not issue instructions or issues instructions that are not sufficiently understandable or if instructions cannot actually be executed, Quicargo shall act at its own discretion and reserves the right to cancel the transport order. Quicargo or the third party commissioned to carry out the transport shall draw the customers attention to an obvious incorrectness or infeasibility of the instructions issued by them. If, contrary to the information given to them, the Shipper insists on the execution of the instructions given by them, the Shipper must bear the resulting damage.
- 5.6. Incorrect information or packaging - Shipper is aware that if incorrect information or documentation is provided or if the shipment is improperly packed the shipment might be returned to the sender.
- 5.7. Pickup and delivery- Shipper is responsible to ensure that enough manpower is present to load and unload the shipment. Furthermore, Shipper is responsible to inform the receiver or end Customer about the details of delivery. Shipments will be delivered by the Carrier engaged by Quicargo pursuant to the following conditions:
 - on working days (Monday to Friday) following pickup in each case by the Carrier. Delivery for Services can take place on Saturday depending on the Delivery Country

Any request by the customer for collection and/or delivery at a specially agreed time or within a specially agreed time period (including outside normal working hours) may be subject to a surcharge at the sole discretion of Quicargo.

- 5.8. The Transit time and delivery time presented by Quicargo are indicative and no rights can be derived therefrom. All Services allow the Customer and Recipient to monitor the Transit of the shipment using the track and trace function on the Carrier's website.
- 5.9. Delivery and excluded areas - Certain areas are excluded from delivery (places and postal codes). Customer must check this before preparing any shipment and take all necessary information measures vis-à-vis the intended recipient. If the Service selected by the Customer is not available for a specific delivery area, the shipment will be returned to the Customer at the Customer's entire costs and Quicargo shall not be liable therefore in any manner.
- 5.10. Signing upon delivery - The Customer is responsible for ensuring that an authorized person signs for the shipment upon delivery. Quicargo is under no obligation to check the credentials of this person.
- 5.11. Waiting times- The following times apply for loading/unloading from when the vehicle is placed at the disposal of the customer and the end-customer, unless explicitly agreed otherwise in writing:
- 1-2 pallets; 15 minutes is the standard waiting time (no extra costs will be charged)
 - 3-19 pallets; 30 minutes is the standard waiting time (no extra costs will be charged)
 - 20-33 pallets; 1 hour is the standard waiting time, 2 hours for international shipments (no extra costs will be charged)
 - Waiting day: for one waiting day 500 euros will be charged.
- The extra time that exceeds the standard waiting time specified above will result in extra costs for the Shipper. Quicargo charges 15 euro per 15 minutes delay. Calculation will be done per 15 minutes, not per minute and will be rounded up mathematically.
- 5.12. Representatives - Customer declares that he is the owner of the goods to be shipped. If the Shipper is not the owner of the shipment or its content the Shipper will be considered a representative of the owner under this GTC.

Customer indemnifies Quicargo and its Carrier of any liability, damages or expenses that result from any violation of this provision.

5.13. Inspection of shipment- Shipper is aware that the Carrier is allowed to inspect the shipment at any place and time without prior notice in order to assess whether the goods are allowed to be transported under these GTC and whether the goods can be exported or imported properly taking into account customs law, standard procedures etc. This will all be done without transferring liability from the Shipper to the Carrier. In the following cases your shipment might be inspected (NB: this list is not exhaustive):

- for the purposes of safeguarding the content of a damaged shipment;
- for the purposes of determining the Recipient or Sender of a deliverable shipment which cannot otherwise be ascertained;
- for the purposes of averting hazards posed to people or property by a shipment;
- for the purposes of fulfilling a statutory provision or an official order;
- for the purposes of determining whether the shipment contains perishable goods and/or any other good excluded from transportation under the present GTC.

5.14. Shipper is aware that the Carrier is not obligated and/or responsible for assessing the contents of the shipment. Shipper hereby gives permission to assess the contents of the shipment by using x-rays.

5.15. Quicargo and the carrier are not responsible for any delays, loss or damage resulting from the inspection of the shipment. Shipper will pay for any additional costs incurred as a result of the inspection of the shipment.

6. Returning shipments

6.1. Obstacles - If collection or delivery can not be completed due to obstacles that were not foreseen and/or communicated to Quicargo at the time of conclusion of the transport order or when the number of attempted deliveries has been exceeded the Carrier is entitled to return the shipment to the Shipper. These obstacles include but are not limited to wrong information such as address, non-located recipient, inaccessible delivery place, non-acceptance of the Shipment by the receiver, inability of the Carrier to perform customs clearance, non-payment of the price of the goods in case of cash-on-delivery, non-payment of duties and taxes by the recipient

- If Quicargo or any other Carrier involved in the Services is unable to seek instructions due to lack of information or if it is unable to identify the Customer and/or the Recipient. - 6.5. If Quicargo is unable to seek instructions due to lack of information or if it is unable to identify the Customer and/or the Recipient within 30 calendar days (see article 6.3), the Carrier will wait for an additional period of 30 calendar days. This additional period will not apply in the case of perishable goods, goods which pose a hazard to people or property, or in the event of an official order. The Customer will reimburse Quicargo for any costs and expenditure incurred through their destruction.
